

## Ingredient Sourcing Form - EXAMPLE

Business Name Craft Parfaits & Lasagna Company Date 12/15/25

Please list:

- The menu items or products your business wishes to sell in the numbered box.
  - Include all flavors offered and indicate if it is a seasonal or rotating flavor.
- All ingredients, including separate flavor additions.
- The farms you directly purchase raw ingredients from for each menu item or product.
  - In the box next to the ingredients, include the name of the farm from which you purchase or source each raw ingredient. Farm- direct sources are noted with a green checkmark.
  - If the item is not farm-direct, include where the product is sourced or purchased from.

	Cheese	Winco – Tillamook Creamery
	Carrots, squash	✓ Winters Farm
	Sausage	Scratch Meats
	Olive oil	Winco

### Notes from PFM:

*This fruit parfait and lasagna may be listed as several items on your at-market menu to highlight the choices available to the shopper. However, it is acceptable to combine offerings that utilize a similar base ingredient.*

*Granola from PFM vendor does not count toward our minimum sourcing requirements because the ingredient is not a raw agricultural ingredient.*

*Sausage from Scratch Meats also does not count toward our minimum sourcing requirement because the business is not a farm.*

*Additionally, the watermelon sourced from CoOp and the milk sourced from Organic Valley is not considered locally sourced regardless of where CoOp or Organic Valley is sourced from the original raw ingredients.*
